Uputstva za slanje datoteka preko WSurf FTPa

Ovdje se nalaze uputstva kako možete poslati neku vašu datoteku na WSurf putem FTPa (File Transfer Protocol) pomoću FTP Commandera. To se posebno odnosi na video datoteke koje su veće i nemoguće ih je poslati putem e-maila (mail server ima obično ograničenje od 10Mb po jednom e-mailu).

FTP Commander je besplatan (freeware) i možete ga skinuti na http://www.wsurf.net/video/ftpsoft/ftpcommander.exe. No također možete koristiti i bilo koji drugi FTP klijent.

Nakon što ste pokrenuli ftpcommander.exe i uspiješno instalirali vaš FTP klient pronađite ga pod start -> programs -> FTP Commander -> FTP Commander.

Kada ste pokrenuli program pojaviti će se sljedeći prozor, gdje treba kliknuti na ikonicu «**New server**»
